TO WHOM IT MAY CONCERN

Recommendation letter for ETD HOME CARE

I am writing this letter of accommodation to anyone who is interested in providing the BEST and most compassionate care for themselves and/or their loved one. My Aunt was a resident at ETD for 16 months. She arrived at the age of 99 to recover from a broken hip and at her request only for a month. After that one month was up she wasn't about to go anywhere. She was with Olivia and Marinell for 16 months and almost celebrated her 101st birthday. Olivia and Marinell provide caring, compassionate care along with home cooked meals and a supportive environment that is unprecedented. The home is loving, clean and much effort is made to make sure that the resident is comfortable and safe and well tended. From a professional point of view I have NEVER seen a better run Adult Family Home.

**Sincerely,
Connie J. Waite, R.N.**
